👤 SUMMARY

Junior Full Stack Developer with 2+ years of experience across both **frontend** and **backend** development. Strong in building scalable systems, integrating **APIs**, and delivering **responsive, user-focused** interfaces in **collaborative team** environments.

📁 WORK EXPERIENCE

Full Stack Developer

Gaddr

08/2025 – 10/2025 | Remote

- Built a multi-platform social media search engine for aggregated results.
- Developed backend architecture for fast, scalable data retrieval.
- Partnered with frontend team to deliver a responsive cross-platform interface.
- Integrated APIs and web technologies to combine data from multiple platforms.

Full Stack Developer

Luday SE

07/2024 – 10/2024 | Remote

- Developed and maintained scalable web servers using Python.
- Built modular backend systems with Docker to streamline deployments.
- Created responsive user interfaces with React-based frameworks.
- Improved user experience for both web and mobile applications.

🎓 EDUCATION AND TRAINING

Full Stack Developer

DCI Digital Career Institute

05/2023 – 07/2024 | Berlin, Germany

- Developed dynamic web applications using JavaScript and the MERN stack to enhance user engagement.
- Collaborated on team projects to build comprehensive front-end and back-end solutions.
- Received training in Agile methodologies to improve project management and team productivity.
- Implemented RESTful APIs to ensure seamless data integration across platforms.
